

Home Screen

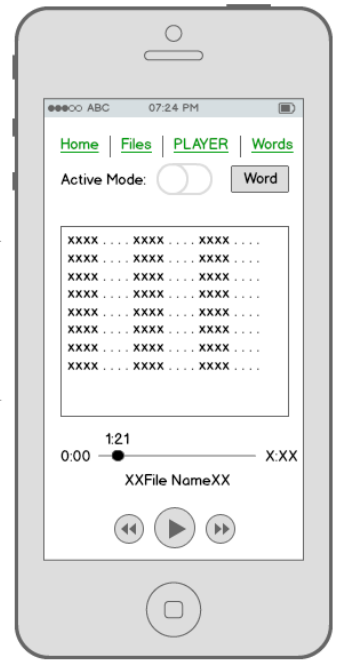

Taping on a file will highlight it to be edited (renamed/deleted) or played

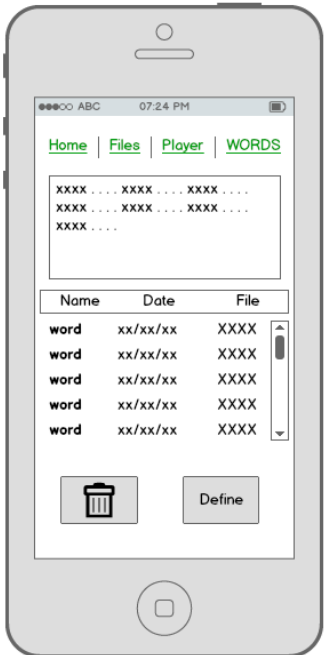

File Manager

Volume Buttons Fuctions in Player:
The function of the volume buttons would be determined by the current mode of the player:

Large Box:
The words that are being read will appear in this box, with the current word highlighted.

Player

Word Bank

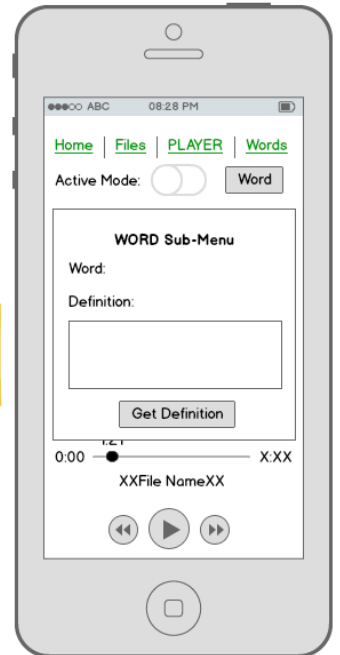

Definitions will appear in the box to the left (current word highlighted) and will be read to user if the "Define" button is pressed.

Words can be sorted by name, date, or file they originated from.
Tapping on a word will highlight it to be deleted or defined.

File Edit Sub-Menu

The "Get Definition" button uses Pearson Dictionary API to generate definition for word. If no definition is available, the button returns an error message.
